HEAD OF DEPARTMENT: Drew Dundas

SUBJECT OUTLINE:
Technology Studies challenges you to understand and appreciate technological innovation and its impact on society. You will learn about the purposeful application of knowledge, resources, materials and processes to develop solutions to real-world design problems by generating innovative ideas and producing products. In Technology Studies you will examine and create solutions to design problems. Design problems are based on identifying a need or responding to an opportunity.

CONTRIBUTES TO OP:
Yes

ASSESSMENT OUTLINE
Assessment Instruments will include:
Design folios and reports.

CAREER PATHWAYS:
Engineer, Industrial Designer, Industrial Engineer, Electrical Engineerer
