Redlynch State College would like to acknowledge the work of Hilliard SS in developing the BYO iPad Charter. Our charter has been significantly based on their work.
Our eLearning Vision

“The Redlynch State College eLearning vision is to foster the integration of technologies throughout all year levels of the College delivering a personalised, inclusive, flexible, innovative and learning focussed approach.”

The Redlynch State College BYO iPad Program:

- Maximises our ability to undertake innovative learning approaches;
- Creates opportunities for authentic, active learning experiences that connect the curriculum with real life experiences;
- Enables personalisation of student learning;
- Best facilitates the development of knowledge and skills necessary for the 21st century workforce, including digital-age literacy, innovation and creativity, effective communication and higher order thinking, and collaboration;
- Allows learning to happen anywhere, anytime;
- Provides an engaging, interactive and flexible environment for learning;
- Strengthens links between home and school;
- Allows students the opportunity to display prior knowledge of topics and thus be co-constructive in their own learning journey.

In 2017 we launch our BYO iPad Program, with the offer of three pilot classes, one each in Prep, Year 1 and Year 2.

The advantages of using the iPad include:

- Access knowledge and information through a vast range of apps that encourage creativity, collaboration, interactivity, and cater to a range of learning styles;
- Includes features that make it easier for students who have vision impairment, hearing issues, a physical learning disability or dyslexia. There are loads of great apps designed for special education needs;
- Flexible teaching and learning environments. Learning can take place anywhere;
- Increased productivity through quick loading of apps and minimal time wasted in booting up and accessing the internet;
- The iPad operating system is very reliable, ensuring maximum up-time;
- Supported by DETE;
- Robust, portable and reliable;
- Easy to troubleshoot and manage;
- Ability to personalise learning and provide work targeted at the correct level for students;
- Simple communication facilities for collaboration with peers, teachers and experts in a local, national and global context;
- Enhanced digital communication with parents. Students afforded opportunities to bring their learning home.
BYO iPad Program FAQs

Q: Why allow only iPads and no other mobile devices or laptops?
A: *We believe in a consistent approach to ensure best productivity with regards to maximising student learning outcomes and providing technical support to students and parents when necessary.*

Q: How much of the day will the iPads be used? Will the students still be using pencil and paper as well as handwriting?
A: *Yes, students will still continue to use pencil and paper and to practice handwriting. The amount of time that students will spend on their iPad each day will vary from year level to year level, class to class, student to student and even day to day. The amount of time will also vary, based on how well the iPad, as a tool to support learning, benefits individual students.*

Q: Will the iPads be managed at home or at school e.g. loading apps, updating the device?
A: *The iPads will need to be managed at home however we can provide some basic technical support at school if the need arises. E.g. connection issues and basic trouble shooting. The list of required apps will be provided to parents on confirmation of their child being awarded a place in a BYO class. These app lists will also be available on our website. Installation of the required apps is a requirement for placement in a BYO class.*

Q: Will I be expected to purchase a brand new iPad and do I have to purchase from a particular store e.g. Apple?
A: *No, you can choose to use an iPad that you already own or purchase a used iPad. We will not recommend a store where you can purchase an iPad. We do not endorse any one store however the Apple store can support you to setup the device.*

Q: Should we purchase a case/cover for the iPad and if so, which one should we buy?
A: *Yes, a case/cover is required for your child’s iPad. There are many competitively priced cases and covers on ebay or you can choose to purchase form a local store. A fully enclosed case with a clear tempered glass screen protector may be the most protective case for an iPad. We recommend that the case should protect both the front and back of the iPad. We will not recommend a store where you can purchase a case or cover. You should also consider purchasing a waterproof sleeve to put the iPad (in its case) inside e.g. wetsuit material, in case of drink spillage in your child’s bag.*

Q: Should we purchase a screen protector?
A: *You should consider purchasing a tempered glass screen protector to help protect the iPad glass screen from damage.*

Q: Is a separate keyboard required?
A: *No, however this is at the discretion of parents.*

Q: Will students continue to have access to computers and other technologies?
A: *Yes. All students at Redlynch State College will continue to have access to computers and other relevant and innovative technologies to support them with their learning.*

Q: Can my child bring a 3G enabled iPad without the SIM?
A: *Yes. The reason why we do not want external controlled Internet access is that by the students going through our school wireless, they are also going through Education Queensland Internet filters, helping prevent and protect our students from accessing inappropriate content.*

Q: Are we required to purchase a stylus pen?
A: *No, we are recommending that students do not bring a stylus to school.*

Q: When buying a used iPad, what do I need to be aware of?
A: *Every iPad has a serial number and with this number, Apple track the date and place of purchase, length of any remaining warranty, and whether it has been reported as stolen. Before buying a used iPad, it may be worthwhile noting the serial number and contacting Apple Care.*

Q: Is my child required to know our Apple id and password?
A: *No.*
Information for Students and their Parents about Acceptable Usage

Acceptable device use

Students must follow the school rules when using their iPad:

- Respect
- Safety
- Commitment to learning and well being

Students must comply with the College Student Internet Use Agreement.

Communication through internet and online communication services must also comply with the department’s Code of School Behaviour and the Redlynch State College Responsible Behaviour Plan for Students available on our school website.

Examples of acceptable use includes:

- engagement in class work and assignments set by teachers
- developing appropriate 21st Century knowledge, skills and behaviours
- authoring text, artwork, audio and visual material for publication on the Intranet or Internet for educational purposes as supervised and approved by school staff
- conducting general research for school activities and projects
- communicating or collaborating with other students, teachers, parents, caregivers or experts as part of assigned school work
- accessing online references such as dictionaries, encyclopedias, etc.
- researching and learning through the school’s eLearning environment
- ensuring the device is fully charged before bringing it to school to enable continuity of learning

Students should be courteous, considerate and respectful of others when using their iPad.

Unacceptable device use

Examples of unacceptable use includes:

- using the device in an unlawful manner
- downloading (or using unauthorised software for), distributing or publishing of offensive messages or pictures
- using obscene, inflammatory, racist, discriminatory or derogatory language
- using language and/or threats of violence that may amount to bullying and/or harassment, or even stalking
- insulting, harassing or attacking others or using obscene or abusive language
- deliberately wasting printing and Internet resources
- intentionally damaging any devices, accessories, peripherals, printers or network equipment
- committing plagiarism or violate copyright laws
- using unsupervised internet chat
- sending chain letters or spam email (junk mail)
- accessing private 3G/4G networks during the school day
- knowingly downloading viruses or any other programs capable of breaching the department’s network security
- using the device’s camera anywhere a normal camera would be considered inappropriate, such as in toilets
- invading someone’s privacy by recording personal conversations or daily activities and/or the further distribution (e.g. forwarding, texting, uploading, Bluetooth use etc.) of such material
- students should not divulge personal information (e.g. name, parent’s name, address), via the Internet or e-mail, to unknown entities or for reasons other than to fulfil the educational program requirements of the school.
What is expected of schools when providing student’s with access to ICT facilities?
Schools will provide information in relation to student access and usage of its network and reserves the right to restrict/remove student access to the intranet, extranet, internet or network facilities if parents or students do not adhere to the school’s network usage and access guideline/statement.

The school will educate students on cyber bullying, safe internet and email practices and health and safety regarding the physical use of electronic devices. Students have a responsibility to incorporate these safe practices in their daily behaviour at school.

Where possible, internet usage by students will be considered and prepared prior to class engagement, including, filtering and checking sites students are directed to visit. An assessment should be made of the appropriate timeframe for access to the internet for completing the set task or duration a student should have access to the internet (e.g. during schools hours, outside of school hours).

What awareness is expected of students and their parents?
Students and their parents should:
Understand the responsibility and behaviour requirements (as outlined by the school) that come with accessing the school’s ICT network facilities and ensure they have the skills to report and discontinue access to harmful information if presented via the internet or e-mail;

Be aware that the ICT facilities should be utilised with good behaviour as stipulated under the Code of School Behaviour; and that students breaking these rules will be subject to appropriate action by the school. This may include restricted network access, or loss of BYO privilege, for a period as deemed appropriate by the school.

Be aware that access to ICT facilities provides valuable learning experiences, therefore giving the student educational benefits in line with the school’s educational program;

Be aware that the internet gives access to information on and from a wide variety of organisations, subjects, people, places with origins from around the world. The school cannot control information accessed through the internet; and information may be accessed or accidentally displayed which could be illegal, dangerous or offensive, with or without the student’s immediate knowledge; and

Understand that teachers will always exercise their duty of care, but protection, mitigation and discontinued access to harmful information requires responsible use by the student.

Internet Use at School
At school, students must agree to follow the College Student Internet Use Agreement. Internet access is provided by Education Queensland’s Managed Internet Service (MIS) and provides students with Content-filtered Internet access and Virus- filtered email.

MIS provides the means to filter students’ access to web pages from a global level; controlled by Education Queensland and from a school level when appropriate.

Internet Use at Home
The iPads can be configured to connect to a home wireless or wired network. This configuration can be performed as with a normal iPad.

E-Mail Use
While at Redlynch State College, students have access to a Department of Education, Training and Employment email account, which they can access from home and school for the purposes of learning. For education purposes this is the only email account to be used. Email traffic is monitored for inappropriate use, content and language
Digital citizenship
Students should be conscious creators of the content and behaviours they exhibit online and take active responsibility for building a positive online reputation. They should be conscious of the way they portray themselves, and the way they treat others online.

Students should be mindful that the content and behaviours they have online are easily searchable and accessible. This content may form a permanent online record into the future.

Interactions within digital communities and environments should mirror normal interpersonal expectations and behavioural guidelines, such as when in a class or the broader community.

Parents are requested to ensure that their child understands this responsibility and expectation. The school’s Responsible Behaviour Plan also supports students by providing school related expectations, guidelines and consequences.

Cybersafety
If a student believes they have received a computer virus, spam (unsolicited email), or they have received a message or other online content that is inappropriate or makes them feel uncomfortable, they must inform their teacher, parent or caregiver as soon as is possible.

Students must never initiate or knowingly forward emails, or other online content, containing:
- a message sent to them in confidence
- a computer virus or attachment that is capable of damaging the recipients’ computer
- chain letters or hoax emails
- spam (such as unsolicited advertising).

Students must never send, post or publish:
- inappropriate or unlawful content which is offensive, abusive or discriminatory
- threats, bullying or harassment of another person
- sexually explicit or sexually suggestive content or correspondence
- false or defamatory information about a person or organisation.

Parents, caregivers and students are encouraged to read the department’s Cybersafety and Cyberbullying information.

Web filtering
The internet has become a powerful tool for teaching and learning, however students need to be careful and vigilant regarding some web content. At all times students, while using ICT facilities and devices, will be required to act in line with the requirements of the Code of School Behaviour and any specific rules of the school. To help protect students (and staff) from malicious web activity and inappropriate websites, the school operates a comprehensive web filtering system. Any device connected to the internet through the school network will have filtering applied.

The filtering system provides a layer of protection to staff and students against inappropriate web pages, spyware and malware, peer-to-peer sessions and scams and identity theft.

This purpose-built web filtering solution takes a precautionary approach to blocking websites including those that do not disclose information about their purpose and content. The school’s filtering approach represents global best-practice in internet protection measures. However, despite internal departmental controls to manage content on the internet, illegal, dangerous or offensive information may be accessed or accidentally displayed. Teachers will always exercise their duty of care, but avoiding or reducing access to harmful information also requires responsible use by the student.
Students are required to report any internet site accessed that is considered inappropriate. Any suspected security breach involving students, users from other schools, or from outside the Queensland DETE network must also be reported to the school.

The personally-owned devices have access to home and other out of school internet services and those services may not include any internet filtering. Parents/caregivers are responsible for appropriate internet use by their child outside the school.

Parents, caregivers and students are also encouraged to visit the Australian Governments eSafety website for resources and practical advice to help young people safely enjoy the online world.

Privacy and confidentiality
Students must not use another student or staff member’s username or password to access the school network or another student’s device, including not trespassing in another person’s files, home drive, email or accessing unauthorised network drives or systems.

Additionally, students should not divulge personal information via the internet or email, to unknown entities or for reasons other than to fulfil the educational program requirements of the school. It is important that students do not publish or disclose the email address of a staff member or student without that person’s explicit permission. Students should also not reveal personal information including names, addresses, photographs, credit card details or telephone numbers of themselves or others. They should ensure that privacy and confidentiality is always maintained.

Intellectual property and copyright
Students should never plagiarise information and should observe appropriate copyright clearance, including acknowledging the original author or source of any information, images, audio etc. used. It is also important that the student obtain all appropriate permissions before electronically publishing other people’s works or drawings. The creator or author of any material published should always be acknowledged. Material being published on the internet or intranet must have the approval of the principal or their delegate and have appropriate copyright clearance.

Copying of software, information, graphics or other data files may violate copyright laws without warning and be subject to prosecution from agencies to enforce such copyrights.

Monitoring and reporting
Students should be aware that all use of internet and online communication services can be audited and traced to the account of the user.

All material on the device is subject to audit by authorised school staff. If at any stage there is a police request, the school may be required to provide the authorities with access to the device and personal holdings associated with its use.

Misuse and breaches of acceptable usage
Students should be aware that they are held responsible for their actions while using the internet and online communication services. Students will be held responsible for any breaches caused by other person(s) knowingly using their account to access internet and online communication services.

The school reserves the right to restrict/remove access of personally owned mobile devices to the intranet, internet, email or other network facilities to ensure the integrity and security of the network and to provide a safe working and learning environment for all network users. The misuse of personally owned mobile devices may result in disciplinary action which includes, but is not limited to, the withdrawal of access to school supplied services.
General Care (Students are responsible for the general care of the iPad)

General Precautions
- It is recommended that food or drink should not be next to your iPad when in use.
- The iPad should be clearly labelled with the child’s name and class.
- Cords, cables, and removable storage must be inserted into, and removed from the iPad carefully.
- Students should never carry their iPad while the screen is open, unless directed to do so by a teacher.
- The iPad should never be left in a car or any unsupervised area.
- Students are responsible for ensuring the battery is charged for school each day.

Transporting the iPad
A protective iPad carry bag has sufficient padding to protect the equipment from normal treatment and provide a suitable means for carrying the iPad within the school. The guidelines below should be followed:
- The iPad should always be within a protective case when carried.
- A waterproof sleeve is recommended to avoid the iPad getting wet (drink bottles should be kept in a different compartment in a child’s backpack) and for further protection.

Screen Care
The screen can be damaged if subjected to rough treatment. They are particularly susceptible to damage from excessive pressure and can be costly to repair.
- Do not lean on the top of the iPad.
- Do not place anything near the iPad that could put pressure on the screen.
- Do not place anything in the carry case that will press against the cover.
- Clean the screen with a soft, dry cloth or anti-static cloth.

Occupational Health and Safety
Students are advised to consider the following advice when using their iPad.
- Taking regular rest breaks (at least every 20 minutes; more often if the setup is not ideal to allow muscles and vision to recuperate).
- Not using the iPad for more than 2 hours in any session.
- Working in an environment free from glare.
- Using the iPad on a desk rather than on the lap whenever possible.
- Changing the viewing angle to minimise the need to bend the neck.
- Using a chair that maintains good posture.
- Reducing the need to carry the iPad (where practicable).
Potential Hazards

The main feature of mobile devices that causes problems is the minimal amount of ergonomic adjustment – this promotes poor posture.

If the screen is at the optimal height for the operator then the keyboard is too high, and if the keyboard is at the optimal height then the screen is too low. Both scenarios may contribute to muscle discomfort or strain to varying degrees.

Potential injuries that can occur through using iPads include:

- Occupational Overuse syndrome (OOS) [also known as repetitive strain injury (RSI)] as a result of sustained unnatural postures and/or prolonged tension on muscles, tendons, and other soft tissues.

- Eye strain through use in environments where there is poor lighting, glare, or reflection, and as a result of straining to view details on small screens.

- Manual handling strain through carrying the iPad for extended periods and/or lifting them out of awkward spaces. Strain may be the aggravation of an existing injury.

- Tripping hazards can also exist where the mobile device has external cables attached such as mains power cords or external drive connectors.

Minimising the Risk of Strain or Injury

- Where possible, place the iPad on a desk at a height where the elbows are at 90 degrees and the wrists kept straight.

- Wherever possible sit in a comfortable chair at a desk.

- Take frequent rest breaks at least every 20 minutes but more often if the setup is not optimal to allow eyes and muscles to recoup.

- Avoid using the iPad for extended periods (maximum of 2 hours in any session).

- Setting the screen at an angle that reduces, as far as possible, the need to bend your neck and minimises reflection.

Preventing Eye Strain

Eyestrain and headaches can be caused by the constant viewing of small objects on small screens, incorrect monitor position, or glare or reflection from lighting sources. The risk of eyestrain can be reduced by ensuring students:

- Work in environments free from glare or reflection.

- Have adequate lighting.

- Increase font size for comfortable viewing.

- Position the iPad screen for comfortable viewing distance.

- Take frequent rest breaks. (An old but valid idea is the 20/20 rule that states “every 20 minutes look at something about 6 metres for 20 seconds”).

- Regularly blink to lubricate your eyes.

- Adjusting the screen brightness, colours and/or contrasts can also assist in reducing eyestrain.

**We recommend an iPad Air device with at least 32GB storage (all storage versions are supported in the BYO iPad program at Redlyn State College)**

***Currently, iPad mini will not support NAPLAN online***

Keep in mind that any personal applications and content placed on the device may interfere with the storage requirements for school use and school required apps must take priority.

Apple devices meet the specifications for Education Queensland and will work quickly and easily on our network at school and for you at home (Internet access is via wireless). Network and platform maintenance costs to support the successful operation of the iPad devices at school will incur a fee of $50 per year. Hardware issues are the responsibility of parents. Visit the Apple website at [www.apple.com.au](http://www.apple.com.au) for information about Apple warranty.

**Charging the Device and Battery Maintenance**

iPads brought to school will need to be fully charged. **The power supply will not be required to be brought to school.**

The school is not responsible for providing an opportunity or the necessary power to charge a student device. Leaving power supplies at home reduces the weight of the equipment student’s transport to and from school and reduces likelihood of damage and/or loss.

The battery life of portable devices is improving as technological enhancements are made. To get the most out of the battery life of the iPads, follow these simple tips:

- Reduce the screen brightness to a comfortable level
- Lock the iPad screen when not in use
- Close all running apps when not in use
- At least once a week, drain the battery to 0% and fully recharge to 100%. This will aid the life of the battery.

**Other Privately Owned Devices**

Apple iPads are the only mobile device allowed to be brought to school as part of the **BYO iPad program** at Redlyn State College. The school will not sanction any other privately owned devices connecting to the school network, other than the devices nominated in the **BYO iPad program** supported devices section. This exclusion includes all other private iPads, and mobile broadband devices. The policy has been enacted to prevent exposure of the school network to security risks.

**Mobile Network (3G & 4G) Connectivity...**

Due to school-based policy, 3G and 4G compatible devices are not allowed into classrooms. This includes mobile phones, mobile broadband devices and any other device with the capability of connecting to an external cellular network. If any of these devices are brought to school they must be checked in at the office each day. This policy has been made to ensure that our school network is not compromised and that students are not able to access an unfiltered internet connection whilst at school. Unfortunately there is no way to block a cellular connection from iPads with this capability.
Security, Insurance and Finance...
While the BYO iPads will be securely stored during break times, parents are encouraged to seek personal insurance (or Apple Care via Apple). Check with your preferred insurance company (or even the iPad reseller) about your personal insurance at home and, to and from school, for your iPad.

The school cannot enter into any finance arrangements with families for the iPads.

Damage in transit...
All iPads will require a protective case when being transported. This will be an additional cost but is well worth the outlay as it is the best form of insurance for iPads and will often protect the device from impacts and accidents. An additional sleeve to place the iPad in cover in is also recommended.

Damage at school...
All devices are monitored by teachers at school and rules are in place to prevent foreseeable problems and damage however, from time to time, accidents may occur. If any damage to a device is through negligence of the school, the school will cover the cost of repair. If damage is caused by deliberate or careless actions of a student (owner or others), the costs of repair will be passed onto those involved and necessary behaviour consequences may apply. The decision around the responsibility for repair costs is at the discretion of the Principal.

Required apps
Each privately owned iPad in the BYO program will require necessary apps to be installed at the cost of the parent (most are FREE). The list of required apps will be provided to parents and will be included on our school website.

At Redlynch State College, criteria is used to select required apps for the BYO iPad Program (final approval for app selection is by the Principal or delegate). The 4 levels of required apps at Redlynch SC are:

- Whole School (all classes at Redlynch SC use these apps)
- Year Level (all classes in a year level use these apps)
- Class specific (all students in a class use these apps)
- Individual student specific (based on the needs of individual students. These will be negotiated between the teacher and parent)

An apps audit will occur at the end of each year to finalise required apps for the following year. Redlynch SC will endeavour to monitor apps for changes to ensure they continue to comply with our apps selection process.

Apps may be requested by the individual classroom teacher to support class learning or recommended to individual students to support individual students’ specific learning needs.
Student iPad Participation Agreement 2017

General Use
1. I understand it is recommended that I bring my personal iPad to school each day inside its case/cover.
2. I will ensure my iPad is charged and ready to use at the beginning of each school day.
3. I will hold the iPad with two hands when carrying it and will walk with it at all times.
4. I will ensure my iPad is kept in my school bag on my trip to and from school.
5. I will keep food and drinks away from my iPad at school.
6. I will immediately report any accidents or breakages to my parents and teachers.
7. I will only take photos and record sound and video when granted permission by my teacher.
8. I will follow all staff directions in relation to the use of my iPad.
9. I understand that if any damage to a device is through substantiated negligence of the school, the school will cover the cost of repair. If damage is caused by deliberate or careless actions of a student (owner or others), the costs of repair will be passed onto those involved and necessary behaviour consequences may apply. The decision around the responsibility for repair costs is at the discretion of the Principal.
10. If I choose not to bring my iPad to school, I will follow the above expectations with school owned equipment.

Content
1. I will use my iPad only to support my school learning program whilst at Redlynch State College.
2. I permit my teachers and parents to perform checks to monitor that I have not installed illegal / unsuitable software and content and to check the websites which I visit. I understand there will be consequences for inappropriate use including, but not limited to, loss of privilege of using the iPad for a period of time.
3. I will ensure there is adequate free storage available on my device for classroom use. Social networking apps are not permitted and only appropriate pictures and videos are to be stored on the device.
4. I am responsible to ensure my iPad is backed up.
5. If I choose not to bring my iPad to school, I will follow the above expectations with school owned equipment.

Safety and Security
1. Whilst at school, I will only connect my iPad to DETE’s filtered Internet service, Education Queensland’s Managed Internet Service only. When devices are used at home, parents are advised to monitor student online activity.
2. Whilst at school, I will only go to websites at school that support my learning activities.
3. I will only use my school email account for mail related to my learning.
4. Electronic messaging, communications and file transfer may be used for educational purposes only, under the direction of my teacher.
5. I will not reveal names, personal details or images of myself or others, online or in electronic communication unless it is safe and I am authorised to do so (parents and students are encouraged to visit the government eSafety site at https://www.esafety.gov.au/ and discuss online safety and privacy).
6. I will only take photos and record sound and video when granted permission by my teacher.
7. The school name, crest or uniform must not be used in any way which would result in a negative impact for the school and its community. I will not post photos, audio or video of such online.
8. I will use my iPad lawfully and in accordance with the Appropriate Use/Behaviour of School Network guidelines regarding ethical use of equipment, technology, use of legal software, use of the Internet and the protection of personal data.
9. For security reasons, I am not to share account names and passwords with anyone unless requested by Redlynch State College staff when servicing the iPad.
10. I am responsible for the security and use of my iPad while at Redlynch SC. Lockable storage will be provided in each classroom for students to secure their iPad during lunch and play breaks.
11. If I choose not to bring my iPad to school, I will follow the above expectations with school owned equipment.

I have read and understand the Redlynch State College BYO iPad Program Charter (including associated costs), above Student ICT Use Agreement and the RSC Responsible Behaviour Plan for Students. I agree to abide by the guidelines outlined in these documents.
I am aware that non-compliance or irresponsible behaviour will result in consequences determined by the school.
