The Certificate I in Manufacturing (Pathways) is based on units of competency selected from the MSA07 Manufacturing Training Package. This Certificate will be undertaken in Year 12. To achieve the qualification, students must achieve competence in nine units of competency. Those units must be:
- all three core Pathways units
- one industry/technical unit* from the industry core list
- five elective units

CONtributes TO OP:
No

ASSESSMENT OUTLINE
Assessment is competency based, which means that students must demonstrate competency in performance criteria. These can be demonstrated through written tests, projects, observation checklists, and completion of training manuals and workbooks.

CAREER PATHWAYS:
Construction trades, Furniture polisher, Wood machinist, Materials engineer, Building contractor, Building surveyor.
