HEAD OF DEPARTMENT: Jane Hurley

SUBJECT OUTLINE:

Students learn to develop knowledge and understanding, processes, skills and attitudes necessary to make informed decisions related to a range of health and physical education topics. They will develop concepts and skills relating to physical activity and personal development.

The Health and Physical Education program provides students with the opportunity to participate in a wide variety of physical activities. Within this program students will have the opportunity to apply specific strategies and skills taught to improve and evaluate physical performance.

Students in Year 9 study units on nutrition, training programs, healthy relationships and drugs and alcohol. In the practical aspect of the course student participate in soccer/futsal, athletics and european handball.

CONtributes to OP: No

ASSESSMENT OUTLINE: Students are assessed using assignments, exams, work booklets which are due towards the end of each term. Practical performance is ongoing assessment throughout the term.

CAREER PATHWAYS:

Senior subject choices include:
