

Redlynch State College BYO iPad Information Evening

Dear Parents/Carers,

Expressions of interest to participate in a BYO iPad class in 2018 will be accepted from early next term.

Our 2017 pilot class has operated this year with great success and we currently have three other classes in the junior school taking up BYO this semester. This is an exciting initiative aligning with the learning strategies of the future. It is well documented that 44% or 5.1 million of Australia's current jobs are at risk of some form of digital disruption, hence the College is focussed on preparing our students for the digital future and we encourage parents to come on board with the initiative.

To explain how the BYO program works we are offering a parent information evening in Week 2, Term 4.

The presentation details are:

- Starts 6:00pm and finishes at 7:00 pm
- Tuesday 10th October
- Venue is the Primary Performing Arts Block.

The following topics will be covered:

- How BYO works
- Cost
- What type of device is appropriate
- BYO agreement between student and school
- Where do you find all the information
- Security and insurance

We hope to see you there. Please RSVP by submitting the cut-off below to the P-6 office or email Samantha Molloy (Deputy Principal) on smoll31@eq.edu.au with the relevant information.

Regards

Rob Hanlon
Associate Principal
Redlynch State College
