# ABOUT LIVE PRODUCTION ENTERPRISE

Redlynch State College is proud to announce our very first business unit to the College - Live Production Enterprise.

The business unit will operate as an extension of our immensely successful Certificate III in Live Production and Services and will offer AV hire and set up services to local businesses and community events for extremely competitive rates.

Not only will the unit provide more opportunities for our students (with all funds going back into the program), it will also provide additional employment pathways and connections for our students.

# TESTIMONIALS

The Live Production and Services course at Redlynch State College has proven to be an invaluable addition to managing all College events. The technical skills developed by the students through the Certificate III course allows for a highly professional delivery in staging, sound and lighting for all the events they are involved in. This has also proven to be the case for many of the larger Cairns community events.

I would recommend their services for any community event or small private function.

Tony Fuller  
Executive Principal  
Redlynch State College

For years I have been impressed with the quality of the live production at events and awards ceremonies at Redlynch State College. Production and presentation values have always been of a high standard; which has always impressed me as the production has been done by students still learning their craft. However, on a personal note I approached the Live Production unit to provide staging and audio equipment for my wedding in October 2017. The team's attention to detail, cross-checking and client satisfaction was extraordinary and I would compare them favourably to any professional organisation that I have previously used.

Their professionalism and quality of equipment was also noted by the musicians, who subsequently requested information so that they could use the services of the Redlynch State College Live Production Enterprise at upcoming events. I have no hesitation at all in recommending them for organisations, corporations or for private functions. The attitude and capacity of the students is to be commended.

Cr Linda Cooper  
Chair - Cultural Services  
Cairns Regional Council
