CORE SKILLS	<p>This is a period of language exploration, vocabulary expansion, and experimentation with different modes of communication, for example, digital media, collaborative performance and group discussions. Learners become more confident in communicating in a wider range of contexts through greater control of language structures and vocabulary and increased understanding of the variability of language use. They use Japanese to communicate and interact; to access and exchange information; to express feelings and opinions; to participate in imaginative and creative experiences; and to create, interpret and analyse a wider range of texts and experiences. They sequence and describe events using a range of cohesive devices, and complete communicative tasks that involve planning, performance, collaborative and independent work. They use language more fluently, with a greater degree of self-correction and repair, and use verbal cues to aid and facilitate communication. They reference the accuracy of their language use against a stronger frame of grammatical knowledge.</p> <p>Learners at this level are able to read and write using hiragana, katakana and an increasing number of kanji in all texts. Their writing is more sophisticated, using connectives and conjunctions, and they engage with more complex language structures.</p> <p>(Australian Curriculum)</p>
